4201OD-5	Olive Drab
4201BL-50	Blue

The RRM-Safety Barrier or portable barricade is a specialty barrier that is superior in strength and quality to the competition. Our barriers are designed to remain maintenance free and stay in place. This barrier, when empty, allows for deployment of just one individual and thus saving the high cost of additional manpower and equipment for set-up. Because our barriers are made with recyclable, UV resistant polyethylene plastic, they won't chip, fade, crumble or spark if struck by a metal object. If you need a portable barrier designed to protect military and civilian personnel, these barriers are for you.
